PBCST504 – MICROCONTROLLERS

MICRO PROJECT REPORT – TABLE OF CONTENTS

Preliminary Pages

1. Title Page
2. Certificate
3. Declaration (if required)
4. Acknowledgement
5. Abstract
6. Table of Contents
7. List of Figures
8. List of Tables (if applicable)
9. List of Abbreviations (if applicable)

Chapter 1 – Introduction

1.1 Project Overview
1.2 Objectives
1.3 Scope of the Project
1.4 Applications

Chapter 2 – Hardware and Software Requirements

2.1 STM32 Microcontroller Overview
2.2 STM32 Development Board and Specifications
2.3 Hardware Components and Sensors Used
2.4 Software Requirements
2.5 STM32CubeIDE and STM32 HAL Library

Chapter 3 – System Design

3.1 System Architecture
3.2 Block Diagram
3.3 Circuit Diagram
3.4 Hardware Component Description
3.5 Pin Configuration and Peripheral Mapping
3.6 Algorithm and Flowchart
3.7 Working Principle

Chapter 4 – Implementation

4.1 Development Environment Setup
4.2 STM32CubeMX Configuration
4.3 GPIO and Peripheral Configuration
4.4 Embedded C Program Development
4.5 Hardware Interfacing and Integration

4.6 Program Execution and Debugging
4.7 Implementation Challenges and Solutions

Chapter 5 – Testing and Results

5.1 Testing Methodology
5.2 Test Cases and Observations
5.3 Hardware Implementation Photographs
5.4 Output Screenshots
5.5 Result Analysis

Chapter 6 – Conclusion and Future Scope

6.1 Conclusion
6.2 Learning Outcomes
6.3 Limitations
6.4 Future Enhancements

End Matter

1. References
2. Appendix A – Complete Embedded C Source Code
3. Appendix B – Additional Circuit Diagrams and Configuration Details (if applicable)
4. Appendix C – Additional Output Images (if applicable)

Instructions to students:

- Include photographs of the actual STM32 hardware implementation.
- If the project is simulated, include screenshots of the simulation and clearly identify it as a simulation.
- Include the circuit diagram, STM32 pin configuration, algorithm or flowchart, and relevant program code.
- Explain the STM32 peripherals used, such as GPIO, ADC, timers, interrupts, UART, SPI, or I²C, wherever applicable.
- Attach the complete source code in the appendix.

Note: Sections that do not apply to a particular project may be omitted or adapted to suit the implementation.
